(a) Fine of Rs. 20,000 plus the price of LPG diverted at commercial rates for 1st offence.

(b) Fine of Rs. 50,000 plus the price of LPg diverted at commercial rates for 2nd offence, and

(c) Termination of the distributorship for 3rd offence.

(iv) The officials of OMCs carry out random checks at distributor's godown, delivery point as well as enroute to ensure that no diversion /black marketing takes place. Action against the erring distributor is taken in terms of MDG / Distributorship Agreement. As regards checking the black marketing of Public Distribution system (PDS) kerosene, the Central Government have made provisions in the Kerosene (Restriction on Use and Fixation of Ceiling Price) Order, 1993, issued under the Essential Commodities Act, 1955, as per which the dealers cannot sell PDS kerosene at a price higher than the price fixed by the Government or OMCs and the PDS kerosene dealers should prominently display stock-cum-price board at the place of business including the place of store on conspicuous place. The State Governments undertake distribution of PDS kerosene through their PDS network and also implement the Control Orders issued by the Central Government under the Essential Commodities Act, 1955. The Jan Kerosene Priyojana has been launched as a pilot project to revamp the PDS kerosene distributors network with a view to first ensuring that this heavily subsidized product is actually made available in the required quantities at subsidized prices to the intended beneficiaries and to thus cap, reverse and eventually eliminate the diversion of PDS SKO for adulteration.

Performance of oil companies

1576. SHRI N.R. GOVINDARAJAR: Will the Minister of PETROLEUM AND NATURAL GAS be pleased to state:

(a) whether all public sector and private sector petroleum companies have earned profits during the current financial year;

(b) if so, the details thereof company-wise separately as compared to the profits of previous year;

(c) whether these companies have increased production, processing and sales of the products; and
